Carol Cliett we are here representing a small non-profit organization that has been in the community for 25 years. We help people who are homeless with a diagnosis of mental illness. We are co-ed and provide housing and life skills for women and men who are trying to mainstream back in the community. We recommend one year for someone to come in, become medication compliant, and get on housing programs. We have 8 rooms and have four permanent residents and four transitional residents. We provide a homelike atmosphere for them. A lot of time they come to us with just the clothes on their back. We survive on a small HUD grant and our monthly lodge services that we have through our residents that stay there. We are not eligible for Medicaid reimbursement. Everyone pays a rate determined on their income. Some times adult mental health will pay for one month's rent.

Commissioner Kramer motioned to approve Resolution No. 2008-11 a Resolution to publicly support the mission and objectives of the Community Organization for Rehabilitative Efforts (CORE) and to allow this declaration of public support to be used by the CORE homeless shelter for the mentally ill to satisfy an application requirement for federal funding and to support housing for low income homeless persons in the City of Twin Falls and authorizing the Twin Falls County Commissioners to make such declaration for and on behalf of the County of Twin Falls and its officers. In the Matter of AIRPORT

Commissioner Kramer motioned to sign the MV Airshow Agreement with the City of Twin Falls which lines out expenses and profits for the Magic Valley Regional Airport Air Show Joslin Field. Second Commissioner Urie. Discussion. Commissioner Kramer this has been through legal and spells out what we are going to do. Commissioner Mikesell I will restate my objections to this contract. They are asking for money which wasn't budgeted and they are asking us to find money if there is a loss. This could have been done effectively and efficiently had it been done right from the beginning. Commissioner Urie the problem is you can't budget money for something you are not aware is going to happen. This came about later on and reviewing the way the board has been organizing this whole project I feel this will be a break even situation. Commissioner Mikesell we've asked for specific information and contracts relieving liability of the County and that has not been done. Commissioner Mikesell we have a request from Rob Williams for an extension of time. Commissioner Mikesell read Mr. Williams letter. I have no problem allowing the appellant or anyone else the extension to receive good information.

Rick Dunn, Planning and Zoning Administrator, we hope to have the transcript by Friday or the first part of next week. Commissioner Kramer according to our Code they have the ability to request this. It's unfair to them to file this without reviewing the transcript. Commissioners then discussed and reviewed the appeals ordinance.

In the Matter of LAND USE

Commissioners considered the Quail Ridge final plat.

Gary Perron it's 41 lots an acre and a half to two and three quarters high end residential subdivision. I'm looking for a signature on the final plat. Commissioner Mikesell it has been signed by all necessary people other than us.

Commissioner Kramer motioned to approve final plat for Quail Ridge subdivision. Second Commissioner Urie. Motion passed.

In the Matter of LAND USE

Commissioners held a rezone hearing for Brian and Shelli Tubbs.

Rick Dunn, Planning and Zoning Administrator, this is a rezone from Agriculture Preservation down to Agricultural. There are a lot of smaller pieces done around it prior to the ordinance. We are simply changing this back down because she would like to build a house on a smaller piece than 160

acres. She's been through Planning and Zoning and it has been recommended for approval. The area in red is the lot in question.

Bill Crafton, Planning and Zoning Director, the Hafliger Dairy is half a mile away and it is contiguous to land use around it. These are dry parcels. Even if changed to agricultural it wouldn't fit because there are not water shares with the property.

Shelli Tubbs I would like to speak in favor of the application; however, I would like to state that if other citizens wanted to do this in a future not to be such a big, expensive process.

Commissioner Urie my issue is they created an agriculture preservation zone for a reason so now we're saying that reason doesn't apply anymore so we're changing it back. Mr. Crafton when they do the zoning map they paint with a broad brush. You are going to have areas that are zoned agriculture preservation that are irrigated agriculture land. If we felt there was an issue we would bring to the Boards and Commissions attention but we don't feel this was an issue.

Commissioner Kramer motioned to approve Tubbs rezone. Second Commissioner Urie. Motion passed.

In the Matter of ORDINANCE

Commissioners held a public hearing to consider an Electronic Ordinance.

Rhea Lounsberry, Assessor's Office, the ordinance is an enabling ordinance. We are not asking the entities involved to create anything new. It is information already prepared by the engineering firms. The digital drawings give us the ability to convert the information to the layers we need which is inserted into our Auto CAD system. The information we have been given has been beneficial. It has increased our productivity and saved taxpayer money. There will be some changes to the plat. We must rename certain things to fit our system; however, everything else stays the same. The layers changed to County standard include layer name, layer color and dimensions are unaltered. We also insert into the drawing the township and range. The information we are asking for is important in the our daily work. It's also important in the appraisal process. The integrity of the original work is not compromised. We do not do anything with the drawings we receive. We will archive the original drawings and operate from a copy. This will save not only the taxpayer money, it will save the developer's money as well.

Bill Crafton, Planning and Zoning Director, the Planning and Zoning Commission looked at this ordinance and we held a public hearing on it at our level. The Planning and Zoning Commission discussed this at length and recommends its approval to the Board of County Commissioners.

No public testified.

Commissioner Mikesell we started this about four years ago. We moved it around back and forth until we found an Ordinance we all could live with.

Commissioner Mikesell motioned to approve the electronic ordinance number to be assigned.

Second Commissioner Urie. Discussion. Commissioner Kramer so what happens to the guy who has one lot. I understand this kind of thing but we have the small guy who tries to put a house for his kid or break off a piece of property for a financing situation. Will we price them out of the market because we force this? Are we going to force every single person to do this. Ms. Lounsberry in the 10 years I've been here, I have never seen one. In the 13 years I was over in Power County I think I maybe saw one line drawing that was submitted. Until a deed or subdivision plat comes through, nothing will be done. There are always additional costs in everything you do. Most of the Counties in the state are also on GIS. Mr. Crafton I don't know exactly how surveyors do it. I haven't been involved in the engineering business for 15 years. The surveys are all electronic. It's a standard survey. Subdivisions are different but drawn the same way. All we're asking for is something to be put on disc. They will not recreate the drawing or anything like this. The cost will be there no matter what. Motion passed.

In the Matter of TAX DEEDS

Commissioners held a tax deed hearing.

RPF8401011019AA has been redeemed.

Debbie Kauffman, Treasurer, we begin the process in August. Last August, 2007, we sent 291 letters. There were 291 parcels that still had 2004 taxes owing. We then follow it up with an October letter and we were at 226 parcels. We try to get everyone to pay them because the next step is the pending issue. At that point we add on costs. At the end of January we had 77 parcels. We sent for title search on February 11. There were 49 at that point. The next step is publication and we publish four times each Thursday in April. At that time we had 27 parcels. Today we have seven parcels in a position that we need to tax deed with the exception of Mr. Sobo.

Parcel number RPT22750010090A owes \$2,108.10 on 2004 taxes and costs. The address is 882 Spring Hollow Court, Twin Falls. It is a home and looks occupied.

Commissioner Kramer motioned to proceed with a tax deed on parcel number RPT22750010090A and let the record show all required laws have been met from the Code to have this property redeemed and documented. Second Commissioner Urie. Motion passed.

Parcel number RP11S17E191800A the owner is deceased. However, several years ago, the Assessor's Office found an heir. We have not been able to contact anybody. Last year we posted it and the Salmon River Canal Company thought they owned it. This is essentially half of a pound. The Canal Company is interested in buying it. We can explore those options afterwards. We have done everything.

Commissioner Kramer motioned to take by tax deed property RP11S17E191800A and let the record show all requirements and laws have been met for the Code and documentation made of all attempts to redeem this property. Second Commissioner Urie. Motion passed.

Parcel number RPT5681001004AA this is a home and a mobile home on the same lot. The property is dilapidated. We've had odor complaints from neighbors. Mr. Meyers is deceased.

Commissioner Urie motioned to proceed with tax deed on property RPT5681001004AA noting that all codes and notices have been met and documented. Second Commissioner Kramer. Motion passed.

Parcel number RPB7621006014AA these people have been paying on this. We've done everything we could to have them understand. I don't think they understand the importance of it. They owe \$287.27. I don't think we have other options at this point.

Commissioner Kramer motioned to proceed with the tax deed on property RPB7621006014AA noting that all requirements and laws have been met by code and document and an attempt be made for an extension until 5:00 p.m. today to pay this before the tax deed is executed. Second Commissioner Urie. Motion passed.

Parcel number RPC95010140190A the owner does not live in the property. There is no one living in it. We stopped at City Hall and there isn't service.

Commissioner Urie motioned to proceed with tax deed process on property RPC95010140190A noting that all codes and notices have been met and documented. Second Commissioner Kramer. Motion passed.

Parcel number RPT00107149132A this is on Hankins Road. It's 64 feet by 574 feet off Hankins Road. There is something the City has. As near as I can tell this is a road.

Commissioner Kramer motioned to execute tax deed for property RPT00107149132A and duly noted that all requirements and laws have been met by Code and we have documentation for that. Second Commissioner Urie. Motion passed.

In the Matter of AMENDED AGENDA

Commissioner Kramer motioned to amend agenda to hear a hardship at noon. Second Commissioner Urie. Motion passed.

Commissioner Urie motioned to approve a hardship exemption for property RPT09010010120A

in the amount of \$1,024.68. Second Commissioner Kramer. Motion passed.

In the Matter of TAX DEED

Commissioner Kramer motioned to reconsider RPT22750010090A. Second Commissioner Mikesell. Motion passed.

Commissioner Mikesell since our first hearing, we have received a check via Fed Ex in the amount of \$6,048.57 which brings the property current.
