In the Matter of GRANT

Mark Brunelle, Research and Development, presented the JAG Grant application. This is for the stimulus funds that uses the same format as we have done before on this program. We're eligible for over \$200,000 as a joint application. We will get about \$50,000 and the City will received about \$181,000. The reason that we are doing it as a joint application is we are listed as a desperate population. The City has received more than 150% of the allocation to the City but we pay more than that for the prosecution of the crimes. In the past it has been half and half. This year we took 5% for administrative fees instead of 10 due to the size of the award. What they are looking to do is they want to improve data transfer and information sharing. They are looking at MDT's for 14 cars and 29 for the Twin Falls Police Department. They aren't going to use the laptop system they are going to build their own. They are also looking at e-citation and some new software. They also want to purchase six additional records. The Sheriff's Office is also going to buy some M-4 rifles for the cars.
